

HR can sometimes be viewed as 'pink and fluffy' but there is nothing pink and fluffy about **Jungle HR**. Our achievements since Jungle was set up in 2008 have enabled *combined client cost savings of £3.7 million pounds!*

We've raised over £4,000 for charities, we've won a number of business awards and our CEO has been awarded a UK Female Entrepreneur Ambassador role. In short, we are proud of what we do and how we enable our clients to be the best!

The projects we have been involved in during the past 18 months have been just as exciting and impactful! We have enabled our clients to grow through acquisition, improve leadership capability, and transform team working. Here's our highlights ...

Gleneagles Hotel Acquisition

Jungle were engaged by Ennismore because of our proven expertise, to lead, from a people perspective, on the acquisition of the world famous Gleneagles Hotel. Jungle's role, was to conduct all pre-acquisition HR due diligence, engage with and on-board the Leadership team, develop a robust communication plan and implement all post-acquisition people activities. In short... our role was to ensure that the acquisition was successful from a people perspective.

The result: Ennismore successfully achieved their business expansion growth plans by acquiring the Gleneagles Hotel from its previous owners Diageo. Jungle were instrumental with this acquisition as we robustly completed pre HR due diligence. The Gleneagles Leadership team were fully engaged throughout the acquisition process, a full communication and engagement plan was implemented ensuring the workforce were fully informed about the new owners. Overall the people aspect of the acquisition was managed by Jungle efficiently and successfully.

"I can't speak highly enough of the role Teresa and the Jungle team played. She was invaluable in ensuring that the people elements were successfully managed both pre and post-acquisition"

CHARLES OAKSHETT
